### **Martha Wells, MPH, RAC, Former FDA Branch Chief of the Human Tissues and Reproduction Branch, to Join Reglera Consulting Team**

*- Wells will bring 36 years of FDA experience to Colorado-based Reglera, one of the world's leading regulatory and quality consulting and outsourcing companies for medical device and tissue organizations -*

Lakewood, CO, January 12, 2010 - Reglera ([www.reglera.com](http://www.reglera.com)) announced on January 12, 2010 that Martha Wells, former Branch Chief of the Human Tissues and Reproduction Branch, Division of Human Tissues, Office of Cellular, Tissue and Gene Therapies (OCTGT), Center for Biologics Evaluation and Research (CBER), FDA, will be joining Reglera as the Vice President of Regulatory Affairs for Tissue and Biologics following her retirement from the FDA in early 2010. Wells has 36 years of experience working for the FDA and will be an invaluable addition to helping service Reglera clients. Wells is scheduled to join the Reglera team in early February.

As a part of her experience with the FDA, Wells was responsible for the coordination, development and implementation of the FDA's new regulatory paradigm for human cells and tissues, including those regulated as biological products and medical devices. She was also responsible for the management of FDA regulatory review of premarket submissions for human cells, tissues, and cellular and tissue-based products, related medical devices and infectious disease donor screening test kits. Wells has been a frequent and distinguished FDA expert speaker at US and international meetings with industry, professional associations, and consumers, and as a leading FDA expert on the regulation of reproductive cells and tissues. Wells has also been an appointed member of numerous FDA special committees and task forces.

Clay Anselmo, Reglera's President and CEO, stated, "Martha's 36 years of experience with the FDA and wealth of knowledge will extend significant value and depth in servicing our clients' needs for the Human Cellular and Tissue Industry. We're honored to welcome her to the Reglera family".

#### **About Reglera**

Based in Lakewood, CO, Reglera is one of the largest and fastest growing regulatory consulting and outsourcing companies in the world. Specializing in the medical device and human tissue industries, Reglera provides companies with products and services that cover a wide variety of technical and support areas. Whether you are developing a new product, need assistance with the FDA, or are simply trying to comply with the myriad of regulations and standards, Reglera's products and services will accelerate your success and profitability. Reglera has many years of experience in the Tissue industry, with expertise that comes not only from setting up compliant regulatory and quality systems but also from practical business experience.
